Discovering Nature with Young Children: Part of the Young Scientist Series Ingrid Chalufour, Karen Worth

Field-tested across the country, this comprehensive curriculum expands and extends the role science has traditionally played in the early childhood classroom. The first in a new series, *Discovering Nature with Young Children* explores the wide-ranging elements that make up the natural world around us. The curriculum replaces simple fact-feeding practices with the development of long-term scientific reasoning, including literacy skills and numeracy skills, such as hypothesis, inference, prediction, and estimation.
