This book is hands-on. As you work through the small business/e-commerce enabled example web site, you will learn how to install, upgrade, configure, and use the various basic features of the e107 Content Management System. The book contains a number of screen shots to reinforce that each step that you perform is correct. This book is primarily for entrepreneurs, small office/home office, small businesses and non-profit agencies who would like to have interactive, business and/or e-commerce web sites at a low cost without sacrificing power or usability. No knowledge of PHP programming, Apache, or MySQL is required. After introducing the fundamental principles of SCM and the benefits of using SCM to manage the software development lifecycle this book uses a real-world case-study project to build a Service-Oriented Application named Orbital Hotel. You will learn the team cooperation features in Visual SourceSafe with the help of John and Mary, two fictional team members assigned to implement various project components. You can visit Orbital Hotel online and you can download its source code.
