What evils await Captain Henry Mitchell on the island below? After battling Japanese Zeros over the Pacific, he's forced to abandon his failing Grumman and parachute to an uncharted island, where he is promptly taken captive by a tribe of pygmies and their cruel leader -- a female, Caucasian westerner like himself who subjects him to tortures both painful and erotic. Unaware of the world conflict going on all around her, she believes Captain Mitchell has come to take from her the treasures she has found on the island. One man, stripped, bound and helpless versus a woman insane who uses her legion of little devils to assist her with his interrogations -- who will win this battle?
