The Natural History of Canadian Mammals: Marine Mammals Donna Naughton, Canadian Museum of Nature

The selections in this section include whales, dolphins, and porpoises.

The Natural History of Canadian Mammals is a beautifully illustrated, up-to-date guide to all 215 known species of mammals in Canada. It features brand-new, full-colour images of each species, as well as stunning photographs from *Canadian Geographic* magazine's national photography competitions depicting the animals in their natural environments.

Along with being a visual treat, this book is jam-packed with information accessible to readers at all levels. Detailed descriptions are provided of each mammal's appearance, habitat, and behavior, while colour maps show their full distribution across Canada, North America, and globally. The book also includes practical guides on tracking and identification for readers who would like to learn how to spot mammals in the wild. Among its most special features is a series of colour plates with vignettes of the Canadian representatives of each group, sized relative to one another for easy comparison and linked to the full species accounts later in the book.

From reader reviews:

Richard Smith:

The book *The Natural History of Canadian Mammals: Marine Mammals* can give more knowledge and information about everything you want. Exactly why must we leave a very important thing like a book *The Natural History of Canadian Mammals: Marine Mammals*? Some of you have a different opinion about reserve. But one aim which book can give many information for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or facts that you take for that, you can give for each other; you may share all of these. Book *The Natural History of Canadian Mammals: Marine Mammals* has simple shape but the truth is know: it has great and massive function for you. You can search the enormous world by open and read a publication. So it is very wonderful.

Jimmy Robertson:

People live in this new day time of lifestyle always try and and must have the extra time or they will get lots of stress from both way of life and work. So , when we ask do people have time, we will say absolutely without a doubt. People is human not just a robot. Then we question again, what kind of activity do you have when the spare time coming to you actually of course your answer will probably unlimited right. Then do you try this one, reading books. It can be your alternative inside spending your spare time, typically the book you have read is definitely *The Natural History of Canadian Mammals: Marine Mammals*.

Brian Register:

Playing with family within a park, coming to see the ocean world or hanging out with pals is thing that usually you will have done when you have spare time, then why you don't try point that really opposite from that. A single activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love *The Natural History of Canadian Mammals: Marine Mammals*, you can enjoy both. It is very good combination right, you still wish to miss it? What kind of hang type is it? Oh can happen its mind hangout guys. What? Still don't obtain it, oh come on its known as reading friends.

Joseph Mattos:

As we know that book is important thing to add our knowledge for everything. By a reserve we can know everything we want. A book is a pair of written, printed, illustrated or maybe blank sheet. Every year had been exactly added. This guide *The Natural History of Canadian Mammals: Marine Mammals* was filled with regards to science. Spend your time to add your knowledge about your scientific research competence. Some people has various feel when they reading a book. If you know how big good thing about a book, you can feel enjoy to read a book. In the modern era like at this point, many ways to get book you wanted.
