The application of systems biology methods to Traditional Chinese Medicine

Emphasizing the harmony of the human body with the environment, Traditional Chinese Medicine (TCM) has evolved over thousands of years. It is a systemic theory derived from clinical experience, the philosophy of holism and systematology, and the belief that man is an integral part of nature.

Systems Biology for Traditional Chinese Medicine describes how the latest methods in systems biology can be applied to TCM, providing a comprehensive resource for the modernization and advancement of TCM as well as general drug discovery efforts. It is the first comprehensive work to propose a system-to-system research methodology to study the interaction between TCM and the human body and its applications in drug research and development.

Using three popular traditional Chinese medicines—Shuanglongfang, Qingkailing, and Liushenwan—as examples, the authors set forth case examples demonstrating how to find material groups, perform efficacy screenings, and conduct safety evaluations of TCM. The book also:

- Describes the mechanisms of TCM at the molecular and systems levels using chemomics, genomics, proteomics, metabolomics, and bioinformatics
- Places modern scientific technologies within the context of TCM, helping drug researchers improve experimental designs and strategies
- Illustrates how a systems biology approach is compatible with TCM's traditional, holistic therapeutic strategies and treatment modalities
- Presents topics of current interest, such as integrated global systems biology and the application of chemometrics research to herbal medicines

This book not only opens a new pathway for the continued development of TCM, but also for systems biology. In addition, it fosters collaboration and discussion among Eastern and Western scientists by applying systems biology to TCM.

From reader reviews:

Steven Zakrzewski:

Throughout other case, little men and women like to read book Systems Biology for Traditional Chinese Medicine. You can choose the best book if you want reading a book. So long as we know about how is important a new book Systems Biology for Traditional Chinese Medicine. You can add understanding and of course you can around the world by a book. Absolutely right, due to the fact from book you can learn everything! From your country until eventually foreign or abroad you will find yourself known. About simple thing until wonderful thing you could know that. In this era, you can open a book or searching by internet device. It is called e-book. You need to use it when you feel weary to go to the library. Let's learn.

Clarice Johnson:

Now a day those who Living in the era wherever everything reachable by connect to the internet and the resources inside it can be true or not call for people to be aware of each data they get. How people have to be smart in acquiring any information nowadays? Of course the answer then is reading a book. Examining a book can help men and women out of this uncertainty Information specially this Systems Biology for Traditional Chinese Medicine book as this book offers you rich info and knowledge. Of course the data in this book hundred per cent guarantees there is no doubt in it everbody knows.

Judith Cole:

The reserve with title Systems Biology for Traditional Chinese Medicine has lot of information that you can understand it. You can get a lot of gain after read this book. That book exist new information the information that exist in this book represented the condition of the world now. That is important to you to understand how the improvement of the world. This specific book will bring you with new era of the internationalization. You can read the e-book on your smart phone, so you can read it anywhere you want.

Chung England:

Publication is one of source of understanding. We can add our information from it. Not only for students but native or citizen need book to know the up-date information of year to year. As we know those ebooks have many advantages. Beside all of us add our knowledge, can also bring us to around the world. By the book Systems Biology for Traditional Chinese Medicine we can get more advantage. Don't one to be creative people? To become creative person must choose to read a book. Merely choose the best book that suited with your aim. Don't always be doubt to change your life at this time book Systems Biology for Traditional Chinese Medicine. You can more desirable than now.
