Functional Mapping of the Brain in Vascular Disorders

Functional Mapping of the Brain in Vascular Disorders

This book contains the contributions to the symposium "Functional Mapping of the Brain in Vascular Disorders", held at the Thirteenth World Congress of Neurology, September 1-6, 1985 in Hamburg, FRG. I have to thank the contributors to this symposium for submitting their manuscripts long before the congress so that the printed proceedings could be distributed to the audience. I hope that this will enable the participants in this symposium not only to recall the vivid presentation of the lectures and the highlights of the discussions, but also to widen their knowledge of the topics dealt with during the symposium by rereading the chapters on the various issues. I would also like to express my thanks to the company UCB, Kerpen, FRG, who supported the symposium and the printing of these proceedings. W. -D. HEISS Cologne, July 1985
