## **Fixed Effects Regression Methods for Longitudinal Data Using SAS** Paul D. Allison

Fixed Effects Regression Methods for Longitudinal Data Using SAS, written by Paul Allison, is an invaluable resource for all researchers interested in adding fixed effects regression methods to their tool kit of statistical techniques. First introduced by economists, fixed effects methods are gaining widespread use throughout the social sciences. Designed to eliminate major biases from regression models with multiple observations (usually longitudinal) for each subject (usually a person), fixed effects methods essentially offer control for all stable characteristics of the subjects, even characteristics that are difficult or impossible to measure. This straightforward and thorough text shows you how to estimate fixed effects models with several SAS procedures that are appropriate for different kinds of outcome variables. The theoretical background of each model is explained, and the models are then illustrated with detailed examples using real data. The book contains thorough discussions of the following uses of SAS procedures: PROC GLM for estimating fixed effects linear models for quantitative outcomes, PROC LOGISTIC for estimating fixed effects logistic regression models, PROC PHREG for estimating fixed effects Cox regression models for repeated event data, PROC GENMOD for estimating fixed effects Poisson regression models for count data, and PROC CALIS for estimating fixed effects structural equation models. To gain the most benefit from this book, readers should be familiar with multiple linear regression, have practical experience using multiple regression on real data, and be comfortable interpreting the output from a regression analysis. An understanding of logistic regression and Poisson regression is a plus. Some experience with SAS is helpful, but not required.

This book is part of the SAS Press program.

### **From reader reviews:**

#### **Nancy Farley:**

Have you spare time for just a day? What do you do when you have more or little spare time? Yep, you can choose the suitable activity regarding spend your time. Any person spent their particular spare time to take a walk, shopping, or went to often the Mall. How about open as well as read a book titled Fixed Effects Regression Methods for Longitudinal Data Using SAS? Maybe it is to become best activity for you. You already know beside you can spend your time together with your favorite's book, you can better than before. Do you agree with their opinion or you have different opinion?

#### **Larry Parker:**

As people who live in the particular modest era should be up-date about what going on or facts even knowledge to make these people keep up with the era and that is always change and advance. Some of you maybe may update themselves by examining books. It is a good choice for you personally but the problems coming to anyone is you don't know what kind you should start with. This Fixed Effects Regression Methods for Longitudinal Data Using SAS is our recommendation so you keep up with the world. Why, because this book serves what you want and wish in this era.

#### **Dale Hollander:**

The reserve with title Fixed Effects Regression Methods for Longitudinal Data Using SAS possesses a lot of information that you can discover it. You can get a lot of gain after read this book. That book exist new information the information that exist in this e-book represented the condition of the world currently. That is important to yo7u to know how the improvement of the world. This book will bring you throughout new era of the glowbal growth. You can read the e-book on your own smart phone, so you can read the idea anywhere you want.

#### **Mary Lamm:**

Reading a e-book make you to get more knowledge from that. You can take knowledge and information from your book. Book is written or printed or descriptive from each source that will filled update of news. With this modern era like now, many ways to get information are available for you. From media social like newspaper, magazines, science book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just in search of the Fixed Effects Regression Methods for Longitudinal Data Using SAS when you necessary it?
