Making Sense of Language: Readings in Culture and Communication

Chosen for their accessibility and diversity, the readings in *Making Sense of Language: Readings in Culture and Communication*, Second Edition, engage students in thinking about the ability to use language--perhaps the most uniquely human of all our characteristics--and how this skill relates to both classical theories of language and contemporary life. Instead of taking an ideological stance on these issues, the text presents a range of theoretical perspectives and bolsters them with pedagogical support, including chapter introductions; critical-thinking, reading, and application questions; and a comprehensive glossary. Weaving in questions of power, gender, identity, ritual, interaction, and the nature of language throughout, the second edition of *Making Sense of Language* is an exemplary text for courses in language and culture and linguistic anthropology.
