The Millennium Matrix: Reclaiming the Past, Reframing the Future of the Church M. Rex Miller

In this dynamic book, theologian, futurist, and communications expert M. Rex Miller presents the innovative millennium matrix, that explains the way we store and distribute information changes our worldviews. Based on the author's extensive research, The Millennium Matix explores the major paradigm and worldview shifts over the past two thousand years and maps them into an easily accessible chart summarizing the entire history of culture and church. From the oral culture of Jesus' time to the print world of Gutenberg's Bible to the broadcast era of television to the emerging digital culture, readers will see the impact of communication on worship and spirituality. Even more, the book then provides practical suggestions on how Christians can successfully navigate the rapid cultural changes that are occurring and that will continue to occur over the decades to come.
