While land-dwelling dinosaurs get a lot of attention, prehistoric seas were teeming with weird-looking creatures, too. Some of them were just as ferocious as any T. rex, like the Megalodon with its massive teeth and bottomless appetite. Swamps, lakes, rivers, and estuaries were also dangerous places for land animals, just ask the prey of the "super croc," the Sarcosuchus. Dino fans will love diving in to this fact-filled book. Exciting text and colorful images will spark their imaginations to run wild and make them happy these creatures aren't still looking for a tasty bite!
