**Essentials of Restenosis (Contemporary Cardiology)** Henricus J. Duckers, Elizabeth G. Nabel, Patrick W. Serruys

Leading interventional cardiologists, including Patrick Serruys, Eric Topol, David Holmes, Thomas Luscher and others provide the gold-standard reference on the treatment of restenosis (coronary artery blockage) for interventional cardiologists. Dr. Serruys, who pioneered the use of drug-eluting stents, and other pioneers in the field cover everything from non-invasive imaging, to eluting stents, to brachytherapy through to the latest molecular biology-based treatments including antisense, stem cells and gene therapy, making this an essential reference for all interventional cardiologists.
