Information (Communication Concepts)

L . David Ritchie

Information (Communication Concepts) L . David Ritchie

This volume thoroughly covers the sub-field of information, and is one of the first in a series which synthesizes the research literature on major concepts in the field of communication. Each concise volume includes a research definition (concept explication) and presents a state-of-the-art analysis of theory and empirical findings related to the concept.

After defining the word 'information', the author contrasts non-linear and reflexive ideas about human communication with linear perspectives. Information is equated with uncertainty. The result presents a pattern for the process of conceptualizing and reconceptualizing information in the context of evolving communication theories.
