Vitamins and Hormones: 55

Under the capable and qualified editorial leadership of Dr. Gerald Litwack, **Vitamins and Hormones** continues to publish cutting-edge reviews of interest to endocrinologists, biochemists, nutritionists, pharmacologists, cell biologists, and molecular biologists. First published in 1943, **Vitamins and Hormones** is the longest-running serial published by Academic Press. In the early days of the Serial, the subjects of vitamins and hormones were quite distinct. Now, new discoveries have proved that several of the vitamins function as hormones and many of the substances inferred by the title of the Serial function in signal transduction processes. Accordingly, the Editor-in-Chief has expanded the scope of the Serial to reflect this newer understanding of function- structure relationships in cellular communication. The Editorial Board now reflects expertise in the field of hormone action, vitamin action, X-ray crystal structure, physiology, and enzyme mechanisms. **Volume 55** of **Vitamins and Hormones** covers steroid hormone action, and includes two additional contributions on calcium and on peptide hormones.

Todd Apperson:

As a college student exactly feel bored to reading. If their teacher questioned them to go to the library or to make summary for some reserve, they are complained. Just little students that has reading's internal or real their pastime. They just do what the professor want, like asked to the library. They go to generally there but nothing reading very seriously. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Vitamins and Hormones: 55 can make you truly feel more interested to

read.
